Storage Clearance Service

The Hidden Cost of Storage

Every month, businesses like yours are unknowingly throwing money away—paying thousands in storage fees for unused office furniture and equipment. Storage companies won't remind you because they profit from your forgotten assets.

But we will.

One of our customers spent **£18,000 over 18 months storing items they no longer needed**. For just £1,800, they could have cleared the space, cut their losses, and turned their surplus into life-changing donations.

What's sitting in your storage unit, quietly draining your budget?

**Slash
Storage Costs**

**Create
Social Good**

**Reduce Waste,
Lower Carbon Footprint**

From Surplus to Social Impact

Transform your redundant equipment into a powerful force for social good, showcasing your commitment to Carbon Reduction through reuse and strengthening your Social Impact Strategy by empowering young people worldwide. Be part of a movement that has already made a difference in the lives of over 1.5 million children across the globe.

The Cost of Doing Nothing vs **The Cost of Making a Difference**

Time in Storage	Average Storage Cost	Cost to Clear & Donate	Potential Savings
6 months	£6,000	£1,800	£4,200
12 months	£12,000	£1,800	£10,200
18 months	£18,000	£1,800	£16,200

Here's **How It Works:**

Assessment & Inventory

We evaluate your stored assets and identify what can be repurposed.

Swift & Hassle-Free Clearance

Our expert team removes the items, saving you ongoing costs.

Ethical Redistribution

Through our School in a Box programme, your furniture finds a second home in disadvantaged schools and communities.

ESG & Impact Reporting

You receive a full breakdown of your contribution, aligning with your sustainability goals.

Your Unused Furniture Could Become a Lifeline

Our School in a Box programme has enabled us to:

- Support education for over 1.5 million children
- Equip over 1,700 schools across 50 countries
- Divert over 1 million items from landfill
- Save more than 5 million kg of carbon emissions annually

Your unwanted furniture & equipment could be transforming classrooms instead of gathering dust

Understanding the Ethical Clearance Process

1. Survey

We arrange a site survey to assess access and egress, identify the items to be ethically cleared, and determine the labour, logistics, and reuse/recycling routes required. This information is then used to prepare a detailed quotation and costing proposal.

2. Ethical Clearance

All processes adhere to high ethical standards, focusing on reuse and redistribution. We are **Safe Contractor** and **ISO 14001 approved**; we are also **NCZ Platinum Carbon Neutral Certified** with our service delivering Better than Carbon Neutral results.

3. Redistribute

We ensure items are directed to organizations and communities domestically and internationally where they can have the most impact.

4. Report

Detailed ESG reports are provided, showcasing the environmental and social impact of the clearance. Filmed Case Studies can also be produced, examples of which can be found at www.wastetowonder.com
